## Summary

In my professional capacity, I exhibit a passion for ongoing learning and growth, and I am enthusiastic about setting challenging goals for myself. I am adaptable and able to work comfortably in dynamic and uncertain environments. I strongly believe in the value of teamwork and collaboration, and I possess the ability to build and maintain productive relationships across organizational boundaries to drive successful outcomes. My communication skills are a particular strength, and I can communicate ideas effectively and professionally to diverse stakeholders.

## Experience

### Refinery Sales Analyst

Parkland Corporation

Jan 2022 - Present (1 year 3 months)

- Conducted descriptive analytics by collecting and analyzing Refinery sales data to identify key metrics such as volume and pricing conversion rate in sales.
- Collaborated with cross-functional teams to understand business requirements and provide insights that inform decision-making.
- Proactively identified data anomalies and worked to resolve them to ensure data accuracy and integrity.
- Utilized ERP Production Accounting software and tools to manipulate and analyze large datasets, ensuring efficient data processing.

### Data Entry Analyst

TB ENG

Jul 2021 - Dec 2021 (6 months)

- Entered and verified data accurately and efficiently into company databases and spreadsheets, ensuring data integrity and completeness.
- Communicated with team members and management to clarify data entry requirements and ensure timely completion of tasks.
- Conducted regular data audits to identify and correct any errors or inconsistencies in data entry.

### Aircraft Technician

Latecoere Aerostructures Canada (Avcorp Industries)

Nov 2018 - Sep 2019 (11 months)

- Conducted inspections of aircraft structures, systems, and components, utilizing technical knowledge and attention to detail to identify and diagnose issues and ensure compliance with safety regulations and technical specifications.
- Interpreted technical manuals and blueprints, demonstrating strong analytical skills and the ability to understand complex technical information.

- Collaborated with cross-functional teams, including engineers and other technicians, to troubleshoot complex structural issues, demonstrating strong communication and teamwork skills.
